

Professor Chen's research interests lie in the intersections between economics, finance and accounting, with a focus on the role of information and incentives in financial markets and within firms, including the effect of information on firms' investment decisions, the role of incentive on accounting systems, corporate governance, and security analysts' behaviors. His recent publications include "On the Use of Loose Monitoring in Agencies" (with T. Hemmer and Y. Zhang), *Review of Accounting Studies*, forthcoming; "Payoff Complementarities and Financial Fragility: Evidence from Mutual Fund Outflows" (with I. Goldstein and W. Jiang), *Journal of Financial Economics* (2010); "On the Relation Between Conservatism in Accounting Standards and Incentives for Earnings Management" (with T. Hemmer and Y. Zhang), *Journal of Accounting Research* (2007); "Price Informativeness and Investment Sensitivity to Stock Price" (with I. Goldstein and W. Jiang), *Review of Financial Studies* (2006), "Analysts' Weighting of Private and Public Information" (with W. Jiang), *Review of Financial Studies* (2006); "Financial Accounting Information, Organization Complexity and Corporate Governance" (with R. Bushman, E. Engle and A. Smith), *Journal of Accounting and Economics* (2004). Professor Chen joined Fuqua faculty in 2000. He teaches *Financial Statement Analysis* and *Analytical Accounting PhD seminar*. He holds a PhD and an MBA degree from the Booth School of Business at the University of Chicago, an MA in economics from University of Maryland at College Park and a BA in economics from Wuhan University in China.
