For gold investment, gold has a significant warning will do.

Who closely follow the international commodity markets, Campbell R. Professor of International Economics at Duke University Harvey, noting that gold prices are already high level, more so in the next period is more likely to follow a downward trend, he said.

Gold, signs of improvement in the U.S. economy, the Fed could start to reduce incentives to reinforce expectations, despite the increase in the last five weeks of the best of the week after registering Harvey answered questions of AA correspondent, "If we look at the historical change of the price of gold, prices are already high. More to follow in the next period it is more likely to be a downward trend. In this case again the next period, gold prices much higher than the 1600 level of \$ 800 dollars a possibility çıkışansa "predicted.

"GOLD CONCERN increases, increases,"

Of gold this year, with the loss of some of the investors' confidence in the quality of the metal value hedge indicating that the expert has made 19 percent decline, "I have some of the factors affecting the decline hunch. Gold prices generally rise with the increase in worry records. More than 1,900 people to see the levels of gold in dollars of the United States have closed a trap similar to Japonya'dakine worry about, almost the brink of fragmentation in Europe

"RISE SHORT TERM"

A recent U.S. economic data in the United States in accordance with the Central Bank's bond program to come out with reference to the acquisition of Harvey, the following assessment:

"In my opinion, we are in a trade built on fear. The U.S. economy is growing, and there are some signs of a beginning of recovery of the EU economy. Second, emerging economies such as China and India, the rise in gold prices can be seen in the increasing demand for gold. However, I still think that this trend will be for a short time. "

CHINA - INDIA Reminder

Harvey also make up a significant portion of gold demand in some emerging economies, the situation is not very bright, said: "India has already had to deal with a very serious and comprehensive problems. Even at the beginning of the Central Bank has recently (in 2008 a few economists can predict the global economic crisis, which is one) was Rajan'in Raghuram. China is currently growing at a much slower than expected. China hard landing or a soft landing is currently being discussed will, "he said.

BE downward movement

Alper Kalyoncu Gold and Money Markets Expert Garanti Bank, the "physical demand for gold prices can say that up. The Far East, China, India and Turkey, under the physical demand. This is supported prices. Many institutional investors have already sold their long positions because they already did not make extra sales. Amount of physical demand, prices could be passed on up and coming, but I do not think the range of 1370-1420 dollars. Physical demand will be reduced in this range, "predicted.

Kalyoncu, "looks like we may in the future between 1300-1400 dollars. In general, the direction is still down. U.S. 10-year bond yields continue to come up. Expansionary monetary policy of the Fed is signaling'm going. This is a downward movement in the coming period, the show could be, "he said.
