New week with rising gold prices finished last week is running fast. Fear of the effect of positive data from the U.S. and the Fed started to attack the gold price per ounce, the first trading day of the week was up to the level of \$ 1,380.

Gold is running a new record. At the end of a summit last week, decided to shut up and that a rising goldpricesthis route remains in the new week. Week closing 1365dollars rising up to an ounce of gold this week Investors one surprise has more.

1380 DOLLAR LEVEL

1380 an ounce of gold is quite spirits into the new week dollar level processesees. Gold, thispriceAlso on the record was the catalyst for two months. Supporting this growth and in U.S.economy good signals from the U.S. Center Bank (Fed) can reduce incentives concerns.

RISE Does it Take?

However, there are also opinions that which would be a short-term rise. DukeUniversity International Economy Professor Campbell Harvey said in a statement, "The Golden prices more likely to follow a downward trend in the next period, "he said.

GOLD PRICES of CURRENT SITUATION

86.5 grams of gold per
quarter gold £ 149.9
£ 296.9 Half gold
