For foreign investors, economists point to the end of the gold rush era could have predicted.
U.S. economy, the Fed's asset purchases to reduce the continuing strong enough to support conclusion that it was with expectations of gold continued to fall, foreign economists for investors gold rush era to the end of the bride might have őngordü.a correspondent of the price of gold for the course, answering questions in international commodity markets closely followed Duke University International Economics Professor Campbell R. Harvey, "Gold has tumbled 28 percent as the previous year. I'm seeing little more than the possibility of the rise of gold. Serious decline in gold prices much more likely to be experienced," he said. Gold investors the previous year price performance as serious losses experienced striking Harvey, "in the United States with the economic recovery of the confidence increases continue processing under the heretofore has been seen price increases, which was the basis of fear eliminating. Golden previous year at 28 percent lost value. I'm seeing little more than the possibility of the rise of gold. serious decline in gold prices much more likely to be experienced," he explained. - you can see $ 1,000 gold. Gold prices and U.S. interest rates close correlation in advance that expresses Harvey, he stated: "Recent data in light of the current situation, so in step 3, the U.S. interest rate to 4 percent possibility of emergence there. If this happens, the price of gold $ 1000 to below we can see that. U.S. interest rates increase economic power increases indicating that the basic indicators one. people's economic environment related concerns decreases, gold decline will continue. Gold demand the very largest of the two countries, one in India last year as gold trading restrictions on the introduction of the gold price low trend mainly was effective. Chinese all commodity asset prices may affect the performance of force having. Chinese economy, low growth indicators of demand for gold also negative direction may be affected. Also in 2014 India's economic growth is expected to slow. "* Under The trend downward "from Johns Hopkins University economist Steve Hanke below the trend is downward by revealing that, next year on the first day of gold prices increased slightly indicated that the trend downward stated that etti.Indian Central Bank of the Fed's 85-billion-dollar monthly bond purchase program to reduce the step in the United States the usual economic data of the bond purchases in reducing speed also can set expectations for gold prices in the downward trend to continue reason olyor.čt the other hand in the present case is under physical demand in India the previous year as leaving behind a number of gold users from becoming in China continues. Especially with the increase in demand for physical gold in China on December 1 last year with $ 1,182.52 on the last six months of the rally was the lowest level. In addition, China's very large spot gold market with Shanghai Gold Exchange also in 2013 to the recipients have made the gold delivery of a previous year's 1,139 tonnes above 2,197 tons interests had made. - World Gold Council pozitifa reporter answered the questions of the World Gold Council in London center if in the gold market demand outlook belong to more positive opinions that they have, putting out made the following statement: "Last year, as in the gold market from West to East shift in demand have observed. Indian government's current account deficit to take control restrictions in the gold market a serious effect has created. In China, still people with gold, the new rising class on the ground that an emotional connection there. This is why in recent years in China, demand for gold in the significant increase was seen. China's middle class, the demand for gold in 2014, strong course will continue. "
