Under lath went up to $ 800!

Experts agree that the bottom will fall. Estimates for 2015 for between $ 800-1050

Gold has become one of the most popular investment vehicles after 2001. Up to $ 256 an ounce in 2001 the price of gold rose to $ 1,921 in 2011. 650 percent of the value of the said period, winning gold in 2012 at ArindAndl preferences of investors. In 2013 the US central bank (Fed) has completed a decrease under the influence of monetary policy. Gold is expected to finish in decline this year. According to 2015 estimates will satisfy the gold investor losses will be the year for gold.

Financial institutions ABN Amro, dropping to $ 1,100 per ounce of gold would predict that this year, 2015, he predicted will finish in the $ 800. ABN Amro, metal, wave of sales, reported gains of the dollar will probably expand with the expectation that further deepened. ABN Amro analyst Georgette Boele, in its report, Boel,
"The rally in the US dollar, especially if the more hawkish Fed this year, even more time," he said. Boel in its report, is still considered the sake of the investors in that position militar and recent data show that these positions fall moderately, adding that it is possible that the increase of sales.

**JP Morgan dropped 4 percent**

ABN Amro has made the most pessimistic forecast for gold. However, other financial institutions also agree on the gold will decline further. JP Morgan lowered its average gold investor and low forecasts for 2015 by drawing attention to consumer demand. Bank, next year the average price forecast lowered by reducing 4 percent to $1,220. The Bank's statement, "Both gold investors both in Asia West was not in the market for a significant portion of the year. Low inflation and the fall in the affiliated tudes's expectations for the future, to be at the door of the interest rate rise in the US dollar and strong enough to cause you to lose power of gold," the statement said.

The retention of valuable metals estimated at Oversea Chinese Banking Corp analyst Barnabas Gan, was found in an estimated 13 percent decline in the coming years will come into gold. "Depending on the and the growth rate of the global economy, the US economy price per ounce of $1,000, or even may even fall further below," said Gan, the world's two biggest consumers might not be enough to stop the decline under the demands of China and India, he said. These two countries, covering more than half of global demand. China's demand in the second quarter decreased 52 percent had decreased to 192.5 tons.

Goldman Sachs, Societe Generale expectations from the participants in the fall. France's Societe Michael Haigh, $1000 and under the yellow metal in parallel with the improvement in stroke decline in oil prices and the US economy, he said the possibility of strong. Goldman Sachs analyst Jeff rey Currie, predicted that the end of 2014 gold sold at $1,050. Professor Campbell R. Harvey Duke University, in earlier statements, inflamed when considering the speed of month end, it was more of the precious metal prices drop area and he said he could decline to $800 an ounce.

**Output short-lived**

Fed meeting and the remaining gold below the 1,180 level after US growth data from the re-entry last week into the selling pressure and dropped to 1130 levels. However, expectations are less than in the US non-farm payrolls on Friday, gold pulled from one to 1.72 dollars. Under the short-lived empowerment. The rise in the stock market, positive US data and reduced investments due to investors getting back into the agenda of the selling price of gold has retreated to 1,160 dollars. Considering the short-term forecasts, for $1,180 for the rise of gold is said that it takes upwards. Otherwise below 1,153 dollars in the first targets of this level can be tested also recorded 1,146 and 1,137 dollars is broken. As factors that could help in the short term under the Russia-Ukraine tensions flare is seen.

**Dollar against the oil-gold brotherhood!**

Strong US Dollar, suppresses commodity markets. Decline in the dollar appreciates raw commodity prices usually happens is priced in dollars. This mechanism explains the situation experienced oil and under at the moment. Oil prices fell below the 85 level in June for $110 dollars. Gold also fell as much as $1,130. Has traditionally been a correlation between gold and oil, and those ties have reached the level of the most powerful state in recent years. US central bank (Fed) will reduce the liquidity in the market expectations spekülatif investments while reducing the incentives end, raises some trouble in demand slowdown in the powerful state in recent years.

It also eliminated the need to keep throwing gold attenuation. In the same way, which means that rise in demand and prices of oil prices below.
Investments will be made under careful! Yaşar University Associate Head of the Department of Economics, Dr. Halaç said short and medium term, the focus should be away from the golden choice. “Maximum benefits gram gold makes the” Istanbul Gold Refinery, Gold Banking Manager Yasar, “Gram gold investment products to investors in physical gold is accepted as the gold that provides the most benefit,” he said.

83 grams of gold lira fell 30 cents BIST Gold Market Index lost 1.25 percent compared to the previous closing value, 83 grams of gold lira fell 30 cents.

Çin’n love gold decreased global demand fell 2 percent in Q3, according to the World Gold Council, total demand fell to 929.3 tons. Bunda 37 percent decline in China’s demand was effective. Compensate for the decline was 60 percent while India’s growing demand for jewelery.

84 pounds grams of gold rose 85 cents BIST Gold Market Index gained 0.92 percent compared to the previous closing value, 84 pounds of gold closed at 40 cents.
