Today market gold prices no change showing an increase. Do you? Today people gold prices gold markets final state curiosity. It is.

Gold. The last one month high. After climbing to the level of a fluctuating watching

1000 DOLLARS GOLD You may RATES

Gold prices and U.S. interest rates. Scroll through a close correlation indicates that Harvey, said:

"In light of recent data readily 3 percent in the U.S. interest rates are likely to rise to 4 percent. This realized gold prices 1000 dollar level. we can see that in U.S. of interest increase economic. One of the main indicators showing that the power increases. People economic with medium about concerns decreases, gold will continue to decline. Gold. The two biggest demand countries. As of last year, one in India gold restrictions on trade in introduction gold prices low trend in the mainly effective. Was. China all commodity assets price performance may affect have the power. China economy low growth indicators gold a negative demand may affect. Also 2014 in India economic growth is expected to slow."

TREND: Downward

From Johns Hopkins University economist Steve also Hanke under trend downward and said, on the first day of the year gold prices somewhat surged, trend downward, he said.

U.S. Central Bank. The Fed's 85 billion dollars worth monthly bond purchase program step towards the reduction in the U.S. current economic data bond reducing intake of expectations that could determine the speed, gold prices decline trend to maintain Causes.

On the other hand readily under physical demand India as of last year, leaving behind a numbered gold user in China, which has become continues. Especially in China physical gold. With the increase in demand for 1,182.52 on December 1 last year dollar on the last six months with the most low-rallied above. In addition, China's largest spot gold market Shanghai, which Gold Exchange also made to buyers in 2013 gold delivery from the previous year's level of 1,139 tons 2,197 tons had announced the release.

WORLD GOLD COUNCIL OF POSITIVE

World Gold London is the center of the Council of gold market demand appearance stating that they have a more favorable opinion, made the following statement:

"As of last year gold market From West to East right demand I have observed shift. Control the current account deficit of the government of India under get the restriction gold market serious impact has created. In China, still people with gold new a rising class because there is an emotional bond. So in recent years in China gold has seen a significant increase in demand. China's middle class gold demand in 2014 strong watching will continue to."
