GoldWe came to the end of an era! Of the U.S. economy, the Fed's asset purchases to reduce continuation with the expectation that is strong enough to support gold continued to fall, foreign investors for economists underattack could have predicted that by the end of the transfer. Closely following the international commodity markets Duke University Professor of International Economics Campbell R. Harvey, "Gold As of last year, 28 percent value lost. I gold I see a very small increase in the likelihood. Gold more likely to have experienced severe declines in prices," he said. Gold As of last year, the price performance of investors experienced significant losses striking Harvey, "with an atmosphere of confidence in the U.S. economic recovery increased up continued under seen before price increases which was the

basis eliminates fear. Gold As of last year, 28 percent value lost. I gold I see a very small increase in the likelihood.

Gold more likely to have experienced severe declines in prices," he said.
