Below will continue to decline LONDON - The U.S. economy, the Fed's asset purchases to reduce the continuing strong enough to support conclusion that it was with expectations of gold continued to fall, foreign economists for investors gold rush era coming to an end could have predicted. reporter goldprices course relatedanswering questions that closely follow the international commodity markets Duke University Professor of International Economics Campbell R. Harvey, "Gold has tumbled 28 percent as of last year. I'm seeing a very small possibility of the rise of gold. Goldprices more likely to have experienced severe declines "he said. Gold investors last year **price** striking performance as Harvey had serious losses, "the U.S. economic recovery to continue but with the increase of the confidence shown previously under pricewhich was the basis of the increase eliminates

Gold has tumbled 28 percent as of last year. I'm seeing a very small possibility of the rise of gold. Goldprices more likely to have experienced serious declines, "he said. could see \$ 1,000 gold Gold prices and U.S. interest rates move in correlation, indicating that a lie Harvey, said: "In light of recent data readily 3 percent to 4 percent of the U.S. interest rates are likely to rise. If this happens, gold pricesWe can see that below the level of 1000 dollars. Increase in U.S. interest rates is one of the main indicators showing that increased economic power. People become less concerned about the economic environment, gold will continue to decline. Gold demand in India is one of the largest in the two countries last year, the introduction of restrictions on trade in gold as goldpricesmainly in the low trend was effective. China all commodity assetspricehas the power to affect the performance. Low growth in the Chinese economy indicators may adversely affect the demand for gold as well. Also in 2014, India's economic growth is expected to slow. "Johns Hopkins: Under downward trend: the University economist Steve Hanke below the downward trend, noting that gold on the first day of the yearpriceshowed a slight increase, the trend is downward, he said. Central Bank of 85 billion dollars worth of U.S. Fed's bond purchase program to reduce the monthly step**take**, Abd'dek reduction of bond purchases in the current economic data rate expectations that could determine the gold pricescausing the downward trend to continue. On the other hand, already under the physical demands of India as of last year, leaving behind gold's, which has become the number one in China continues. Especially with the increase in demand for physical gold in China on December 1 last year with \$ 1,182.52 on the last six months of the rally was the lowest level. In addition, China's largest spot gold market in 2013 with the Shanghai Gold Exchange gold delivery to the recipients of his Idi 1,139 tonnes the previous year's level of interest announced that 2,197 tons. World Gold Council World Gold Council responded positively to questions of reporters of central London to the demand outlook in the gold market**related**more positive opinions have stated, made the
