Don't Waste Time on Well Worried, Including 'Yield Curve'

Joseph Calhoun Alhambra Investments April 12, 2022
Well, that didn't last long. I wrote last week about the inversion of the 10-year/2-year term spread as the yield of the 2-year Treasury note rose above the yield of the 10-year Treasury note. Using end-of-day data, the curve inverted on Friday, April 1st, and stayed that way until....Monday, April 4th. The spread closed last
